ISBN 978-5-903258-28-4

The papers in this volume have been for the most part prepared by the authors, with additional typesettings and formatting by Geophysical Survey of Russian Academy of Sciences and Mining Institute of Ural Branch of Russian Academy of Sciences

Cover: Evolution of the sinkhole in Berezniki-1 potash mine (Perm region, Russia) and associated seismicity

Backcover: Cross-section of fossilized Permian tree conserved in salt layer

Printed by Inter-YES ltd, Perm, Russia

# CONTENTS

## MECHANISM OF SEISMIC EVENTS AND MECHANICS OF ROCKBURST DAMAGE. LABORATORY STUDIES, VISUAL AND SEISMIC OBSERVATIONS

Keynote Lecture: Constraints on behavior of mining-induced earthquake inferred from laboratory rock mechanics experiments <b>A. McGarr, M. Johnston, M. Boettcher, V. Heesakkers and Z. Reches</b> .....	3
Keynote Lecture: Forensic rock mechanics, Ortlepp shears and other mining induced structures <b>G. van Aswegen</b> .....	11
New insight into the nature of size dependence and the lower limit of rock strength <b>B.G. Tarasov and M.A. Guzev</b> .....	31
Fault formation in foliated rock – insights gained from a laboratory study <b>X. Lei, T. Funatsu and E. Villaescusa</b> .....	41
In-situ monitoring and modelling of the rock mass response to mining: Japanese-South African collaborative research <b>H. Ogasawara, G. Hofmann, H. Kato, M. Nakatani, H. Moriya, M. Naoi, Y. Yabe, R. Durrheim, A. Cichowicz, T. Kgarume, A. Milev, O. Murakami, T. Satoh and H. Kawakata</b> .....	51
Quasi-static fault growth in a gabbro sample retrieved from a South African deep gold mine revealed by multi-channel AE monitoring <b>T. Satoh, X. Lei, M. Nakatani, Y. Yabe, M. Naoi and G. Morema</b> .....	61
Relating tilt measurements recorded at Mponeng gold mine, South Africa, to the rupture of an M 2.2 event <b>P. Share, A. Milev, R. Durrheim, J. Kuijpers and H. Ogasawara</b> .....	67
Determining the proneness of rock to strainburst <b>P.M. Dight, B.G. Tarasov and A.W. O'Hare</b> .....	75
Seismic dynamic influence of rock mass tremors on roadways according to the orientation of the rupture plane in the tremor source <b>K. Stec</b> .....	83
Testing of the source processes of mine related seismic events <b>D. Malovichko and G. van Aswegen</b> .....	93

## ACQUISITION, PROCESSING AND INTERPRETATION OF SEISMIC DATA

Keynote Lecture: The use of moment tensor solutions in the analysis of mine seismicity: evaluation and interpretation <b>C-I. Trifu</b> .....	109
Development of measuring complexes for the assessment and control of burst-hazard during mining <b>I.Yu. Rasskazov, V.A. Lugovoy, G.A. Kalinov, A.V. Gladyr, P.A. Anikin, M.I. Rasskazov and D.I. Tsoj</b> .....	121

Accurate 3D location of mine induced seismicity in complex near-field underground conditions <b>S. Coccia, A. Lizeur, P. Bigarré, I. Contrucci and E. Klein</b> .....	125
Seismic hazard assessment using bent-ray and rectilinear passive tomography in the Polkowice-Sieroszowice copper mine <b>J. Dubiński, A. Lurka and G. Mutke</b> .....	137
Investigating the potential for locating trapped miners using a pre-existing microseismic monitoring system <b>D. Cumming-Potvin, J. Wesseloo, Y. Potvin and M. Green</b> .....	145
High accuracy measurements of seismic velocity variation in mines <b>R.A. Lynch, G. Olivier and M.T. Green</b> .....	157
Frequency range, log E, log P and magnitude <b>A.J. Mendecki</b> .....	167
Resolution of microearthquake mechanism inversions using a close-to-surface array at Ocnele Mari, Romania <b>Z. Jechumtálová, J. Šílený and C-I. Trifu</b> .....	175
Reverse time imaging of complex sources <b>E.C. Lötter</b> .....	181
Mining induced seismicity: moment tensor vs. shear-tensile/implosion model. Case study of Ridgeway, E. Australia gold mine <b>J. Šílený, E.C. Lötter and G. Capes</b> .....	189
<b>INTEGRATION OF NUMERICAL MODELLING AND SEISMIC MONITORING</b>	
Keynote Lecture: Numerical modeling of seismicity: theory and applications <b>A.M. Linkov</b> .....	197
Surface stress modelling of some shear slip seismic events that occurred in Anglogold Ashanti's tabular mines <b>G. Hofmann, S. Murphy, L. Scheepers and G. van Aswegen</b> .....	219
Improvement of numerical stress models using the source mechanisms of seismic events <b>D. Malovichko</b> .....	233
Evaluation of stresses in strongly inhomogeneous rock with multiple cracks, openings and pillars <b>L. Rybarska-Rusinek, E. Rejwer and D. Jaworski</b> .....	249
Numerical simulation of the released energy in strain-softening rock materials and its application in estimating seismic hazards in mines <b>V. Levkovitch, D. Beck and F. Reusch</b> .....	259
Forecasting mining induced seismicity from modelled energy release in high stress stope extraction <b>S. Arndt, V. Louchnikov, S. Weller and A. O'Hare</b> .....	267

## SEISMIC HAZARD

Keynote Lecture: Characteristics of seismic hazard in mines	
<b>A.J. Mendecki</b> .....	275
Inter-event volume mined outperforms recurrence time as a hazard indicator	
<b>C. du Toit</b> .....	293
Some aspects of quantitative version of rockburst Hazard Evaluation Method	
<b>J. Kurzeja</b> .....	299
Towards real-time probabilistic hazard assessment of the current hazard state for mines	
<b>J. Wesseloo</b> .....	307
Some results on mining-induced seismicity prediction in the Khibiny Apatite mines	
<b>A.A. Kozyrev, Iu.V. Fedotova and O.G. Zhuravleva</b> .....	313
Methods and results of burst-hazard assessment in the underground mines of Russian far East	
<b>I.Yu. Rasskazov, B.G. Saksin, P.A. Anikin, M.I. Potapchuk, A.V. Gladyr, A.V. Sidlyar, E.E. Damaskinskaya, B.A. Prosekin and S.P. Osadchiy</b> .....	319
Short term seismic hazard assessment in S.A. gold mines	
<b>D.B. Rebuli and G. van Aswegen</b> .....	323
Collapses forecasting based on seismic monitoring data analysis	
<b>V.I. German</b> .....	333
Microseismicity of coal mine goafing	
<b>A.V.Z. Brink, S. Spottiswoode, S.Z. Pethö and C. Selai</b> .....	337

## GROUND CONTROL AND SEISMIC RISK MANAGEMENT

Keynote Lecture: Rockburst damage mechanisms and support design principles	
<b>P.K. Kaiser and M. Cai</b> .....	349
Keynote Lecture: Improving seismic risk management in hardrock mines	
<b>Y. Potvin and J. Wesseloo</b> .....	371
Mapping seismic vulnerability in stopes in deep South African gold mines	
<b>R.J. Durrheim, J. Kuijpers, G. Henry, A.V.Z. Brink, B. Kagezi, G. Ferreira, R. Teleka, A. Milev, H. Ogasawara, A. Ward and J. Wienand</b> .....	387
Application of seismic information in the mining design and monitoring of the KDC-East main shaft pillar	
<b>N. Naicker</b> .....	395
A modified sequential grid layout to increase production rates in deep level hard rock mines	
<b>Y. Jooste</b> .....	413
Rockburst and seismic hazard management at the New Mine Level project, Codelco VP, Chile	
<b>J. Jarufe, P. Vasquez, J. Pereira and W. Rodriguez</b> .....	429

Sesimic hazard assessment and abatement geotechnology for safe iron ore mining in West Siberia <b>A.A. Eremenko, V.N. Koltyshev, V.A. Eremenko and V.A. Shtirtz</b> .....	439
Development of seismic heading re-entry and exclusion zones at the Tasmania Mine <b>A.R. Penney and P.B. Hills</b> .....	447
 CASE STUDIES	
Keynote Lecture: Multi-scale seismicity at potash mines. Fifteen years of the seismic monitoring at Verkhnekamskoye deposit <b>A.A. Malovichko, D.A. Malovichko, R.A. Dyagilev and D.Y. Shulakov</b> .....	463
Converting to sub-level caving at over 1000 mbs – Seismicity at Eloise Copper Mine <b>M.H. Turner</b> .....	475
Micro-seismic monitoring at the Tasmania Mine, Beaconsfield, Tasmania <b>P.B. Hills, D.B. Rebuli and R.A. Lynch</b> .....	485
Kola Peninsula mines induced seismicity and secure development of rockburst-prone deposits <b>A.A. Kozyrev, V.I. Panin, Iu.V. Fedotova, S.S. Pugachev and P.A. Korchak</b> .....	495
Results related to pitwall microseismic monitoring (“Zhelezny” mine, Kovdorsky GOK, JSC) <b>M.M. Kagan, A.A. Kozyrev and D.S. Chernobrov</b> .....	501
Relation between microseismic activity and parameters of mining in the Verkhnekamskoye potash deposit <b>D.Y. Shulakov and T.V. Verkholantseva</b> .....	505
Seismicity associated with karst in flooded salt mines in Perm region, Russia <b>R.A. Dyagilev, D.Y. Shulakov and P.G. Butyrin</b> .....	511
Characteristics of rockbursts in the flooded mines of Kolar Gold Fields <b>C. Srinivasan, Y.A. Willy and R.M. Carter</b> .....	517
 TERMINOLOGY	
Mine seismology: Glossary of selected terms <b>A.J. Mendecki</b> .....	527
 AUTHOR’S INDEX .....	 555
